A story that was never finished

Belgian melodic metal · renewed in 2026

Some bands return out of nostalgia.
Circle Unbroken returned because the
story wasn't finished.

Circle Unbroken is a Belgian melodic metal band combining modern groove, melodic depth and raw energy with progressive, symphonic and gothic influences. After the release of debut album *Vincere* in 2016 and a seven-year silence, vocalist Marieke Bresseleers and keyboardist/composer Franky Demangelaere reactivated the band in 2026 with guitarist Rik Priem, bassist Vassili Moltchanov and drummer Kris Loris. The renewed line-up unites five seasoned professional musicians around new music, a stronger visual identity and a clear live ambition across Belgium and Europe.
